Anderson's Wear-Easy Shoe.....

is a shoe made especially for farm use and that will wear "as easy as an old shoe" right from the start. A shoe in which there is not a peg or nail or thread to touch the bottom of the foot. A shoe that is almost as soft and flexible as a lady's hand turned. A shoe with a pure white oak innersole that is cooling to the bottom of the foot; all other every day shoes are made with cheap acid tanned red leather innersoles that burn, scald and blister the feet so badly in hot weather. A shoe that will give more comfort for general farm use than any shoe that has ever been gotten up.

We keep this shoe
in Buckle and Con-
gress & the price is **\$1.50**

Is the Democratic Nomina- tion for Governor.

The Stone-Goebel Combine Or- ganized the Convention.

David R. Redwine Their Choice For Tem-
porary Chairman.

SPECIAL TO THE KENTUCKIAN.
Louisville, Ky., June 22.—Convention Hall.—It was close to high noon, and the mercury stood almost to boiling point, when the great convention called to nominate candidates for State offices, and to make a platform for them to stand and win upon, was called to order by Chairman Johnston.

Rarely if ever before, has a Democratic convention in Kentucky been attended with questions of all absorbing interest as surround this one.

With victory in the air—and a once more united party to the fore—the ticket nominated will receive an old time Democratic majority.

The first thing in order was the selection of a temporary chairman, the vote for which is given below.

Temporary Chairman.

For Redwine (Stone-Goebel), 551 1-6
For Sweeney (Hardin) 529 5-6
Necessary to choose (11 votes
not counted) 541

After eight hours of the most intense excitement, due chiefly to the closeness of the situation, the combined forces of Capt. W. J. Stone and Senator William Goebel effected a temporary organization of the Democratic State Convention by electing a chairman in the person of Judge David B. Redwine, of Breathitt county. His opponent the representative of the Hardin side, was Capt. W. H. Sweeney, of Washington county.

After prayer by Rev. H. R. Coleman, of Louisville, the chairman called for nominations for temporary chairman, and amid a storm of applause Ollie James, of the First district, presented the name of Judge David B. Redwine, of Breathitt county. He said:

"I rise for the purpose of placing in nomination as temporary chairman, a man who fears not the encroachments of incorporated wealth of the country, who fears not the encroachments of incorporated wealth of the country. I came forward to present to you the name of a Democrat who has fought a thousand battles for his party and never yet fought one battle against it. I come to present the name of David B. Redwine, of the Eleventh congressional district; and the Fifth congressional district; and the districts in Western Kentucky propose to join hands with the mountains and put in the gallant Democrat who has often wielded the sword for the indignant Democracy."

Mr. Urey Woodson, of the Second district, seconded in a few appropriate words the nomination of the mountain Democrat for the position.

Secretary Stone then called for the nominations from the other congressional districts, and quiet was maintained until the Eleventh district was called. James Garnett, Jr., of Adair county, arose at this point and placed before the convention the name of Capt. W. H. Sweeney, of Marion county. The Hardin followers applauded but weakly, and fearing that some of the delegates favorable to his favorite might not understand. Mr. John B. Thompson, of Mercer county, came to the footlights and told them that Mr. Sweeney would stick by them if elected. In nominating Sweeney Mr. Garnett said:

"Coming from the Bloody Eleventh where Democrats are known by the fights they have made in the face of the great adverse majority, I desire to place before this convention for temporary Chairman a man who has come into the Eleventh, who has lived in the Fourth, who has traveled over the Third and who has been every district in the State to help fight their battles. I

desire to name a Democrat, and one of the best Democrats, in my opinion, who, if you elect chairman of this convention, will preside fairly and impartially, but at the same time with firmness. I desire to present to this convention the name of the Hon. W. H. Sweeney, of Marion county."

Chairman Johnston ordered a call of the counties, but many Hardin delegates, late getting into the hall, protested against it until they could be seated. Maj. Johnston again ordered the call peremptorily, and it was begun, with nearly every Hardin delegate on his feet shouting vociferously for Sweeney. It was not long after 11 o'clock when the balloting began, the convention in this respect breaking the record of promptness, and the ballot had not preceded far before it became evident that all records were also to be broken in the length of time consumed in taking it.

And Then the Fun Commenced.

On a call of the contested counties that had been passed during the roll-call the "rough-house" time of the convention began. There was but little discussion over the contest in Ballard, the eight votes being given to Capt. Sweeney, as they were in the settlement of the Calloway county contest. In Bullitt Redwine got four and Sweeney two votes, and in Caldwell the eight votes were divided between them. It looked for some time as if the one vote of Jackson county was to go uncast, but finally a lone delegate strayed in and cast it for Sweeney.

In the county of Daviess the nineteen votes were given to Redwine, the regular credentials being recognized. This was the first thing to come the way of the anti-Hardin men in the settlement of the contests, and they loudly applauded the action of the chair.

Combine Ahead in First District.

The First district meeting was brief and harmonious. The delegates met promptly at 9 o'clock and the gathering was called to order by Chairman J. D. Mocquett, of McCracken county. Ward Headley, of Caldwell, was elected chairman of the meeting, and Clem Nunn, of Hopkins, secretary. Mott Ayres, of Fulton; was elected State Executive Committee man, and Clem J. Whittemore, of Graves, State Central Committee man.

George W. Landram, of Livingston, was named for the Committee on Resolutions; R. J. Bugg, or Carlisle, for the Committee on Credentials, and John L. Smith, of Lyon, for the Committee on Organization. J. B. Garnett, of Trigg; R. L. Shewell, of Marshall, and John F. Cocke, of Ballard, were elected Vice Presidents.

Geobel-Stone Get Second and Har- din Men Bolt.

In the Second congressional district convention the Hardin men bolted and had a convention of their own, although both sides started out together, when, at 9:15 o'clock, Chas. M. Meacham, of Hopkinsville, the Executive Committeeman, called the assemblage to order. His call for nominations for the various posts to be filled started the trouble. John A. Bell, of Union county, was nominated for the district's representative on the Committee on Resolutions. The name of Roy Salmon, of Hopkins county, was

then presented. Instantly Stuart Starling raised the point that L. P. Tanner, Owensboro, who had made this nomination, was not a delegate, had no credentials, and was not entitled to take part in the meeting.

Mr. Tanner, saying he wanted fair play, called upon the Hardin men to assemble a short distance away, and proceeded to hold a bolting convention. In the meantime the regular convention proceeded with its business and chose the following committeemen, who favored the Geobel-Stone combination:

Resolutions—John A. Bell, Union county.

Organization—John L. Dorsey, Henderson county.

Credentials—R. D. Higdon, McLean county.

State Executive Committee—C. M. Meacham, Christian county.

State Central Committee—J. T. Griffith, Daviess county.

COW'S BRAIN.

Placed in a Man's Head and Both Are Living.

The most delicate surgical operation ever performed and which has so far proved successful was accomplished by Dr. Harman at Hamlin, West Virginia, last week. Jay Lutz, mine boss in the Harman mines, was almost killed by falling slate, his skull in the back of his head being badly crushed. All hope of his recovery was abandoned, but Dr. Harman concluded to resort to the last means to save the man's life, and accordingly had brought in from the pasture field a young heifer and the brains of the animal were removed and substituted for those which were badly lacerated in Lutz's head.

The transfer of the delicate members was so tedious, but was, it is believed, so successfully done that Lutz will recover. After the brains were removed she was turned loose in the pasture field. The beast stands in one place all the time, unless started by some one, and it is necessary to start her jaws to moving when she is fed and stopping them when she completes her meal.

Sleep Without a Pillow.

It is hardly like that the pillow was invented by any one in particular. It was in the first instance, there is every reason to believe, a very rational institution and consisted of a small pad upon which to rest the head when beds were by no means the luxurious affairs that they are today.

The pillows in use to-day are responsible for many evils, which you may be willing to admit when they are appointed out to you, and if you test the efficacy of their disease you would become as ardent an advocate of the custom as the writer.

There is no greater fallacy than the belief that a big downy pillow conduces to healthy rest in sleeping. You sink into its embrace and delude yourself that you are comfortable with your head resting upon the dear, soft, cozy mass of feathers. Yet, if the pillow slip away from you in your sleep, do you miss its seemingly soothing influence? No. And, if you can sleep thus comfortably and not know it, why should you not have the courage to put it away altogether?

The pillow may seem to breathe out beautiful dreams to you; but, while it is beguiling your attention with its seeming restfulness, it may be pushing your ears out of shape, and it is certainly making wrinkles in your neck and deepening the hollows over the chest by forcing the head forward. It may seem a little thing in itself, but happening every night it will rob you of all the beauty your neck would naturally have and nullify the good of any exercise you may take. Aside from the benefits to be derived from a shapely neck and chin, to sleep without a pillow will conduce to health and greater restfulness. It may seem strange at first, even a bit painful, but if persevered in you can very soon overcome this, and the good to be derived will well repay you.

Beauty is Blood Deep.

Clean blood means a clear skin. No beauty without it. Cascarets, Candy Cathartics clean your blood and keep it clean, by stirring up the lazy liver and driving the poisons from the body. Begin to day to banish pinkeye, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for ten cents. All druggists, satisfy guarantee, 10c, 25c, 50c.

How Far it is to Lese-Majeste?

It is interesting to note how rapid the growth of militarism is when the seed is once planted. Before the smoke had cleared away from the Spanish-American battlefields we began to "assimilate" the Cubans in Cuba, the Filipinos in the Philippines and labor unions in Idaho. The Postmaster General closes the mails against citizens of the military, and the President holds volunteers in service against the law of military force.

It would seem that the United States have become a nation under

President, as commander-in-chief of the army and navy, might elect to have from day to day. Supporters of militarism demand the arrest and punishment of worthy citizens for criticising the conduct of the Administration, and old men, who have spent their lives in the service of the country, are called "traitors" because they dare say that William McKinley is running the nation in opposition to the constitution and the best interest of the country, and good, true and loyal men are denounced for protesting against having their cablegrams subjected to the whims of a censor. How far is it to where it will be lèse majeste? Militarism supported by trusts, monopolies and the money power is imperialism and the people of the United States are getting rather more than a taste of it.

Great Thoughts of Great Men.

It is a great deal better to live a holy life than to talk about it. Light houses do not ring bells and fire cannons to call attention to their shining—they just shine. D. L. Moody.

Troubles are growing pains, not death agonies. God is doing the best He can for us, not the worst. In the darkest hour of life the soul may rise like the nightingale singing songs in the night.—Newell Dwight Hillis.

There are some men and some women in whose company we are always at our best. While with them we cannot think mean thoughts or speak ungenerous words. Their mere presence is elevation, purification, sanctity. All the best stops in our nature are drawn out of their intercourse, and we find a music in our souls that was never there before.—Henry Drummond.

No seaman has failed which has sent one man away richer by a single thought or stirred to a single brave deed.—Ian Maclaren.

We put too much faith in systems, and look too little to men.—R. D. Russell.

Any class of men that lives from mouth will ever be an inferior class. They will necessarily remain impotent and helpless, hanging on to the skirts of society, the sport of times and seasons. Having no respect for themselves, they will fail in securing the respect of others.—Samuel Smiles.

Any good thing that I can do, or any kindness that I can show to any human being, let me do it now. Let me not defer it or neglect it, for I shall not pass this way again.—Henry Drummond.

The greatest homage we can pay to truth is to use it.—Emerson.

Every man stamps his value on himself. The price we challenge for ourselves is given us. Man is made great or little by his own will.—Schiller.

Why Should Poultry Pay?

Some enthusiastic writer, who believes that there is more profit in poultry than in any other pursuit on the farm, gives his reasons therefor in the following paragraphs.

1. Because you ought by this means to convert a great deal of the waste of the farm into money, in the shape of eggs and chickens for market.

2. Because with intelligent management they ought to be all-year round revenue producers, excepting, perhaps, about two months during molting season.

3. Because poultry will yield you a quicker return for the capital invested than any of the other departments of agriculture.

4. Because the manure from poultry house will make a valuable compost for use in either vegetable garden or orchard. The birds themselves, if allowed to run in the orchard, will destroy many injurious insects.

5. Because while cereals and fruits can only be successfully grown in certain sections, poultry can be raised for table use or to can cans in all parts of the country.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and became fatigued with the use of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had a good health for twenty years. I give this certificate without solicitation, in appreciation of the generous felt for the cure effected.

DEMOCRATIC TICKET.

For Railroad Commissioner,
J. FLETCHER DEMPSEY,
of Hopkins County.

The loss to the Suwanee Spoke
and Lumber Company's plant at
Kuttawa, will exceed \$10,000.

The officials of the Illinois Central
say that their road will be extended
to Omaha by January 1, 1900.

Yellow fever has broken out at
Santiago, and three American soldiers
have died of the disease.

This seems to be almost a trust
administration, but somehow the
people won't trust the administration.

The first clash in the coal mine
strike at Evansville occurred Tues-
day and as a result three miners
were fatally shot and several others
are wounded.

Otis' reports of battles fought and
victories won reads very much like
rehashed Spanish accounts of the
victories over the Cubans two years
ago. But the fighting still goes on.

To a man up the tree it looks like
Uncle Sam has hit off more than he
can "chaw" in the Philippines
unless some one besides Otis is sent
over to take charge of the mastication
business.

Never were so many rotten things
brought to light after a war as are
being almost daily revealed by in-
vestigating committees. Does real
patriotism exist only in the hearts
of the men in the trenches?

This is certainly an age of trusts.
Everything is running so strongly
in that direction that the expression,
"free as air," will soon play
out. Liquified air may soon come
into such general use that a trust
may be formed on that too.

Jno. H. Marshall, Sr., committed
suicide in McMullin's hotel, Henderson,
Tuesday. He left a note saying
his son's ingratitude was the
cause. He was 70 years old and
one of the most prominent citizens
of the place.

We have heard this expression
many times during the week that if
a "dark horse" had to be brought
in order to harmonize the Demo-
cratic party in Kentucky that Hon.
John Young Brown would be the
man placed in nomination for Gov-
ernor. It is generally known that
ex-Gov. Brown has stated repeat-
edly that he did not want the office,
but the nomination tendered him
under such circumstances would be
hard to refuse.

Gov. Bradley, it is announced,
has decided to send no more soldiers
to Clay county at present. His
plan is to give Circuit Judge Ever-
sole an opportunity to hold a special
term of court, and if there is no im-
provement in the condition of affairs
to call an extra session of the State
Legislature. The Legislature
would be asked to pass laws con-
ferring authority on the Governor to
appoint a Judge with power to sum-
mon a grand jury from distant
counties.

Multimillionaire Rock fellow may
stay in Alaska as long as he pleases
and still the shekels will continue to
roll into his pocket at the rate of
twenty dollars a minute, day and
night, the year around. The best
thing this country can do is to
place a limit on a man's acquisition
of money. What is a few millions
given to a Chicago university occa-
sionally, when all the oiling has to
do is to advance the price of oil half
a cent a gallon, to raise a little
small change, to hand over a mil-
lion or so to the trusts of the uni-
versity? Who gives it to the uni-
versity, the people of the land or
the king of trusts? It requires no
Solomon to answer this.

A HIGH HONOR.

Conferred Upon Dr. R. Harry
Wilson, Formerly of Hop-
kinsville.

Dr. R. Harry Wilson, formerly of
this city, was elected to fill the
chair of Romance Languages in the
University of Virginia, at a salary of
\$3,500, at a meeting of the Board of
Trustees, held several days ago.

The election was very comple-
mentary, as the vote was almost uni-
versal, and many eminent scholars
were applicants for the position. Dr.
Wilson is a son of R. H. Wilson, of
Pembroke, and a brother of Guy
Wilson, of this city. Dr. Wilson
received his education in the schools
of this city, graduating as valedic-
torian with degree of B. A. from
South Kentucky College eight years
ago. Later he went to Europe to
continue his studies, making a
specialty of the modern languages.
During the several years he was
abroad he lived successively in
France, Germany, Italy, Spain and
Switzerland. He was married in
Paris to a cultured French lady.
Two years ago Dr. Wilson returned
to America to accept a position as
lecturer on the romance languages
at Johns Hopkins. His services
there, his magazine articles and
general work in the interest of
higher education have won for him
an enviable place in the educational
world. He secured his doctor's de-
gree at Johns Hopkins a year ago,
and his thesis was pronounced one
of the best ever submitted to the
faculty of the institution.

WHEAT HARVEST.

Christian County Farmers Pleased
With the Yield.

From interviews with many of
the leading farmers of Christian
county, it is learned that about
a net per cent of the wheat crop
in this section has been harvested
and bids fair to yield well. Thresh-
ing began several days ago, and
the farmers are exceedingly busy
just now.

Might Have Been Worse.

There came near being a disas-
trous explosion at the Pembroke
Roller Mills, in this city, Saturday
morning; it seem that some part of
the machinery in the engine room
went wrong, and a large fly-wheel
was thrown off. Fragments of the
wheel were blown through the roof
in two or three different places.
The foundation of the shafting was
also somewhat shaken up. A little
son of Mr. Bumpus was in the
engine room at the time, and not realizing
the danger he was in tried to
shut off the steam. Mr. Bumpus
himself was nearby, and noticing the
unusual rapidity with which
the mill was running ran into the
engine room and shut off the steam.
Fortunately no one was hurt, and
the damage to the mill slight, as
compared to what it might have
been had it not been stopped when
in was.—Pembroke Journal.

There is more Catarrh in this sec-
tion of the country than all other dis-
eases put together, and until the last
few years was supposed to be the
cause. For a great many years doctors
pronounced it a local disease and
prescribed remedies designed by
men who had never seen it. The
most pronounces it incurable. Science
has proven catarrh to be a consti-
tutional disease, and therefore requires
constitutional treatment. Hall's Cat-
arrh Cure, manufactured by F. J.
Cleene & Co., Toledo, Ohio, is the
only constitutional cure on the market.
It is taken internally in doses from 10
drops to ten spoonfuls. It acts direct
on the blood and mucous surfaces
of the body, and expels all the
diseases of the system. It costs only
a few cents for any quantity. Send

monials. Address,

PEASANT

Will Be The Endeavor Trip to De-
troit—Expenses Low.

Local interest among all people,
as well as Endeavorers centers in
the convention to be held next
month in Detroit and the many attrac-
tions of the trip to that meet-
ing.

As the convention will be larger
than any of the preceding ones, it
will bring together more prominent
men to take part on the program,
many will go for the opportunity of
hearing these men repute.

And then Detroit itself, second to
no city in the country, will serve to
induce many to go.

The wonderful region of lakes
and rivers of which Detroit is the
natural center, will also cause many
to make plans for going there instead
of the seashore or mountains.

To these points of interest, exceeding
low round trip rates from Detroit have been named,
making expenses scarcely an item
to those wishing to visit these cool
summer resorts. A few of these
rates are given below.

The Kentucky party will leave
Louisville on special train at 8
o'clock, on the morning of July 4th.

This train being independent of all
connections will make the run to
Detroit by 7:50, passing in succession
the cities of Indianapolis, Dayton
and Toledo. As the convention
begins on the 5th lasting till the
10th, this will allow a rest-up before
the meeting.

Those going on this special will
go to Louisville on the 3rd of July.
A very low rate has been secured
for them at 5th Ave. Hotel, which

will make expenses less and the
trip more pleasant than if part of
the run were made by night and
hot sleepers used, besides giving a
day light ride all the way. At Detroit
everything will be arranged with
a view to economy and convenience,
all the worry of arrangement being
borne by the State Committee of
Transportation.

The expenses of the trip will
be extremely low. The fare from all
points will be one fare for the
round trip. That will be \$15.35
from Hopkinsville to Detroit and
return. The stopover in Louis-
ville will cost from \$1.00 to \$1.50.
Board in Detroit will cost from \$L.
00 to \$2.00 per day. The entire
expense need not exceed \$25.00 or
\$30.00.

A rate of \$6.90 from Detroit to
Niagara and return has already
been named, and it is said that
even a lower rate than that will be
made. This is over the railroads
through Southern Canada, affording
the novelty of getting outside of
Uncle Sam's domain.

The following are the rates
named for the round trip to some of
the lake points, the amounts not
including meals and berth aboard
steamer.

Detroit to Cleveland and return \$2
" " Buffalo " " 4.00
" " Mackinac " " 4.00
" " Port Huron " " 1.00
" " Chicago " " 8.50
" " Sand Beach " " 2.00
" " Oscoda " " 2.50
" " Alpena " " 3.00

portation Manager, ALLAN D. WAL-

tion wanted.

Leg Broken.

Lafayette, Ky., June 21.—Last
night Jasper Fuqua, age about
16, son of Esq. A. J. Fuqua, and
some other boys were returning home
from Roaring Springs. They
got to running their horses and
Jasper's horse fell with him and
broke his (Jaspers') leg just below
the knee. Dr. J. F. Stone reduced
the fracture and he is getting along
very well at present. Though the
Dr. says it is a very bad break, the
larger bone being crushed.

The prospect for a tobacco crop
in this section is not good, many
have not finished planting and very
few have a good stand, on that
point.

Death of a Child.

Robert, the little son of Mr. Wm.
Fowler, died at the home of its
parents in this city Monday, after
a brief illness. Mr. and Mrs. Fowler
have the sympathy of a large cir-
cle of friends in their bereavement.

Mrs. Maze and her two daugh-
ters, Clara and Mattie, left Tues-
day for an extended visit to friends
in the upper part of the state.

DEAD INFANT FOUND.

Coroner's Inquest Throws no Light
on The Matter.

The body of a child, wrapped in
the skirt of a dress, was found by
Willie Payne and Arthur Coleman
colored boys, as they were passing
along the I. C. railroad, near the
farm of W. S. Bowles, Tuesday
evening. Reporting the matter to
coroner Allensworth, the body was
cared for, and an inquest held over it
Wednesday morning, when a verdict
was returned to the effect that
body of an unknown well-developed
female infant, color not known,
had been found, wrapped in an old skirt.
It is hoped that some light may be
thrown upon the mystery enveloping
the child by means of the dress in which it
was wrapped. There were no marks of
violence on the body.

The Best Law School.

We call especial attention to the
advertisements in another column of
the celebrated Lebanon Law
School. This is perhaps the oldest
law school in the south, and certainly
the most famous. Its graduates
have filled the highest offices
in the country. They have been and
are United States Senators, and
Congressmen by the score. Judges of
the United States Supreme Court
and other Federal Courts, and are
on the supreme benches of Tennessee,
Alabama, Florida and elsewhere,
to say nothing of the many
Judges of inferior courts. A diploma
from this old law school is a
passport to any point in the profes-
sion.

Robbery is believed to have been the object, as Capt. Cole, along with the other employees of the road, had been paid off Monday. Officers believe they are on the track of his assailants.

WHEAT SHORTAGE.

Reported in The Greater Part of Europe.

The Times' London financial correspondents: "We are threatened with an agricultural disaster that many, among other evils, inflict upon us a woefully short grain crop. June, usually rather wet, is this year, so far, rainless and crops are already half ruined in many parts of the country. The same conditions prevail over the greater part of Europe and in South Russia the wheat crop is said to be lost; so if your farmers are favored by the weather, they have again a splendid prospect before them, even with India competing."

Soldier Boys Meet.

Mr. Gano Bullard had a number of friends to meet with him Tuesday night at the home of his brother, Mr. J. R. Bullard, on South Virginia street. It was principally a gathering of soldier boys who were with Mr. Bullard in the Third Kentucky, and the evening was enjoyed spent in relating incidents and hair-breath escapes while in the service of Uncle Sam. At a late hour refreshments were served.

Union Services.

The regular union church services will be held at the Ninth Street Presbyterian church, on next Sunday evening. Dr. Harrison, of the Vanderbilt Training School, at Elkhorn, who will be here filling Dr. W. K. Piner's appointment at the Methodist church, will deliver the sermon-services beginning at eight o'clock.

Will Bramham Improving.

Latest reports from William Bramham, who was so badly scalded in the late railroad wreck at Guthrie, are of a more favorable nature, and the indications are that he will get all right in time. His parents and brothers, who have been with him much of the time, are most sanguine as to his recovery.

First New Wheat.

The first new wheat that was received by the Acme Mills, of this city, was raised and delivered by E. C. Cayce, of South Christian. It was a fine grade of grain, and weighed 61 pounds to the bushel.

Negro Carpenter Hurt.

Will Edmund, a negro carpenter in the employ of J. H. Wade in the construction of an elevator at Pember, fell from a scaffold Monday and sustained serious injuries. A sprained arm and cut on the head are the most serious. At last accounts he was resting easy.

IN CIRCUIT COURT.

But Few Cases of Interest Being Tried.

Circuit Judge Cook has been absent in Louisville since Wednesday morning, in attendance upon the great convention, being a delegate from Calloway to the same. Ex-Circuit Judge James Breathitt has been on the bench, presiding as special judge, during the absence of Judge Cook.

Wednesday morning the papers in the case against Walter Washington, Turner Tucker and Will Davenport, who were charged with breaking into a store house, were filed away, and the alleged culprits were put on probation. They are all three children, and if their future conduct is good the case will not be reinstated.

When the case of the Commonwealth against Jordan Baker, charged with carrying a concealed deadly weapon, came up for trial it was found that there was a defect in the indictment. The case will be resubmitted to the grand jury at the next term of court. Baker was held under a bond of \$100.

John Russell as Judge.

During the absence of Judge Leavelle, who is in attendance upon the convention, John Russell, one of the brightest young members of the Hopkinsville bar, has been presiding as special judge over the City Court. The first case he tried was that of some vagrants, whom he gave one hour in which to leave town.

If your sight is blurred with specks and spots floating before your eyes, or you have pain in the right side under the ribs, then your liver is dangerous, and you need a few doses of HERBINE to regulate it. Price 50 cts. etc. Sold by R. C. Hardwick.

Smallpox in Kentucky.

Dr. J. N. McCormack, Secretary of the State board of health, said yesterday that the smallpox situation in Kentucky had improved to the extent that all restrictions had been removed from the railroad companies of the State, and they are again at liberty to resume their excursion business, except in Ohio county. The situation in that county is much better and under control in all other parts of the State. Dr. McCormack has notified the railroad officials of this decision of the State board of health.

Dr. Blakey's New House.

Dr. T. W. Blakey has closed the contract with Forbes & Brother for the erection of a handsome residence on the beautiful lot on South Main street that he lately purchased from Dr. Wallace. The house will be two and a half stories high, with all modern improvements, and will be brick, finished with ornamental stone. The cost will be about \$1,000.

FACTS AND FIGURES.

Miss Katie McDaniel's Report For 1899-1900.

Miss Katie McDaniel, Superintendent of Christian County Schools, has completed her summary of the reports made by the district enumerators of the city and county for the 1899-1900 school year.

The census shows a small falling off from last year in county. This is due to the fact that many families have moved to town, as shown by a considerable increase in the city.

Christian county, not including the city of Hopkinsville, has the following number of children between the ages of 6 and 20:

White males, 2697; females, 2506; total 5203. Colored males, 2202; females, 2301; total, 4503. Whole number in county, male, 4899; female, 4807; total, 9706. This is 10 less than were reported last year in the county outside of Hopkinsville.

The city report is as follows:

White males, 512; females, 556; total, 1068; colored males, 435; females, 589; total, 1024. Whole number in the city, males, 947; females, 1145; total, 2992.

This is 98 more than were enrolled last year.

The whole number of pupils in the city and county is: male, 5846; female, 5952; total, 11798. This is 88 more than last year.

Of the 91 white districts in the county, 17 are first-class, 33 are second-class, and 41 are third-class.

Of the 54 colored school districts, 29 are first-class, 14 second-class, and 11 third-class.

In an Ugly Scrape.

The Paducah Sun says: Charles Hamilton, a well-known resident of Cerulean Springs, was tried before Commissioner Puryear on a charge of selling liquor without a license. He is a blacksmith and the evidence against him is so strong that he is thought to be in a pretty bad box. He was held to answer in the sum of \$800, and it is thought will give bond.

Crap Shooter's Cost.

JAMES HAMILTON, Wyatt Coleman and Henry Adams were arrested Monday night while engaged in a game of craps. They were fined \$20 each in the city court next morning. Adams paid his fine.

SEASON OF 1899.

To Our Friends: Another season of seed time is fast approaching, and the wise and prudent farmer will again use the old and favorably known JONES' BRANDS or BONE AND ANIMAL MATTER FERTILIZERS, that have for many years done their full duty when applied to both Spring and Fall crops. The use of commercial Fertilizers is almost universal, and the experience of many years has proven conclusively that ANIMAL MATTER FERTILIZERS are the most complete plant food known, and the fact of putting ACID PHOSPHATE ROCK in a bag and branding it "DISOLVED BONE" does not make it animal matter. Honest strictly pure Animal Matter Fertilizers cost more than rock goods because they are worth more, and we can prove this fact. Our goods go out under our own test analysis, and this guarantees the good. We offer our goods on their merits, and with great satisfaction to their many excellent reputation in all parts of Ohio, Indiana, and Kentucky, where they are extensively used. We respectfully urge you to give the celebrated Jones Fertilizing Co.'s goods a trial on both Spring and Fall crops, and we know their results and future orders will certainly follow.

EDDINGTON'S LIVER PILLS

The Little Chicks.

There is great mortality among little chicks, caused by different diseases and a combination of circumstances. Many of these causes can be avoided when you know what they are, but that is where the trouble often lies, in not being able to find out what the cause is. Much trouble is caused by ignorance on the part of attendants and still more through carelessness. And then there are others who cause much loss by being too careful, or in other words, they keep their chicks too closely confined or cooped. I know of some raisers who are so afraid their chicks will get the gapes, that they keep them cooped up on a floor until they get leg weakness and lousy, and what not, and die off by the dozens before they know what the trouble is.

Others go to the other extreme and let their chicks out in all kinds of weather and at all times of the day, cold or warm, and as a result die off in great numbers with the gapes. A kind of golden medium is what we would advise. Have good roomy coops for your hens and chicks and shut them in at night and keep them in mornings for a while until the grass has become nearly dry when I would let the chicks out and keep the mother hen in until the chicks are about ten days old. Those can be let out, hen and all, and further that I would encourage them to hunt all that is possible away from the coop, especially if you have good range, as in that way they will gain much of their living and grow fast in the bargain. If you have a lot with very little if any grass in it, you can let your chicks out much earlier in the mornings and not hurt them any, as if in the grass. Nothing will develop gapes in young chicks quicker than to let them run out in the deep, wet grass, when it is cold, and try to keep with the mother, who seems bent on giving them a good airing. With these conditions, and a good supply of sloppy, raw raw corn-meal scattered all over tainted and filthy grounds, they will as a rule just naturally gap out before you know it.

Another source of much trouble is in crowding too many in one coop with a single hen. We have seen twenty-five or thirty thus crowded together and to keep them healthy it took skill, and a very roomy coop, but the average man or woman will fail at it. Many a brooder is a failure on the same line, by being crowded, when diarrhoea sets in and the last chick dies before it can be checked. I am of the opinion that 50 should be the limit of any single brooder, and 20 for a hen. I usually try to set two hens at one time and then when hatched put them with one hen, if there are not more than twenty, which is about the average for two. Then the other hen can either be reset or broken up ready to go to laying again.

As a precaution against lice on the little fellows, grease the hen lightly with fresh lard, under the wings and on the keel bone, but do not mix coal oil with it as it is not necessary, and sometimes injures their eyes, and sulphur will too. Use no grease on the hen while she is setting. Insect powder from the drug store sifted in the nest, or some tobacco dust or leaves rubbed up, and put in the bottom of the nest.

You will find the egg-tester quite a convenience, for example you can set about four hens at a time, and when they have been at work for about eight days you can take the tester, and go over them and get out all that are not fertile and will not hatch, and if there are many of them you can put the rest under two hens and dispense with one, reset her or get her to laying again soon. I am well aware I am not telling many of you anything new, but if I put some on the right track who are off I shall be well repaid, and perhaps wake others up to a sense of duty. It takes careful watching of the little things, in order to make a success of the greater things.

Sparrow and Poultry.

The English sparrow is giving trouble in some sections and is a disease carrier. A Mississippian reader calls attention to the nuisance, as follows:

"Please do not think I am trying to monopolize your time reading letters from me, but I am so pleased with the four 'Illustrators' you sent me that I am forced to write and thank you for them; any one of the 'Illustrators' is worth twice the price sent. They are just what I want and should be in every home that raises chickens. The cuts for buildings of all kinds are simple and cheap for the poor and some expensive for the fastidious."

"I will ask you just one question and thank you for a reply in your valuable paper: Is there any way to get rid of English sparrows? Where I scatter grain in my poultry lots they get there by the time my chickens do. I examined their nests last fall and found them full of mites and I think they brought them among my chickens. I cannot put grain (poisoned) out for them for fear of killing my pigeons. I had no pigeons last year, so they did not bring them."

"There seems to be no remedy against the sparrows except the shot-gun, poison, breaking up their nests, or destroying them in some manner which is yet to be discovered. They not only carry disease germs on their feet but come in large numbers to devour the food of the fowls. They will fly straight through two-inch wire mesh, chilblains, frost bites and chronic sore eyes. 25cts. per box. For sale by R. C. Hardwick.

The use of poison is dangerous to others than the sparrow. There is one thing that disgusts them, which is to whip them out of their roosting place after dark; for then they cannot easily get back and fall victims to the cat. But after all it is cruel to so treat them and many have not the inclination to destroy them.

A Kentucky Story.

Lexington has a citizen who must be trying to beat the record of Baron Munchausen as a prevaricator. His name is Jerome B. Frazer, and here is a sample of soaring fancy taken from The Lexington Argonaut:

"I am very fond of domestic animals and fowls, and the possessor of a fine, intelligent fox terrier, who answers to the name of Fanny. I attended a sale some months ago and bought a Poland duck. I brought her home and put her among the other poultry in the yard. In a few days I noticed that Fanny and Miss Poland were on good terms with each other, and in a few weeks they were inseparable. Finally Miss Poland thought she had loafed long enough and went to sitting. Fanny made regular visits to her and seemed to take great interest in the proceeding. The duck rarely left her nest. After sitting for about a week she sickened and died. Fanny seemed almost heartbroken over the untimely death of her friend. The evening of her death I missed Fanny from her accustomed place in the yard and began a search for her. I found her in the duck's nest with the eggs underneath her. The next morning I visited the poultry house and found Fanny still covering the eggs. I concluded not to disturb her, but await results. This continued for some weeks, and at the end of the usual time allowed for incubation I found that six lively little ducks had become citizens of the poultry yard. Fanny seemed very proud of her success as an incubator. The little duck followed her, and seemed to know no difference between Fanny and a barnyard fowl. The strangest part of this story yet remains to be told. Fanny is a remarkable ratter, and these little ducks developed into the finest rat killers I ever saw. I am willing to match these six ducks against six terriers for \$100 to \$1,000, a side in a rat killing contest, and I will win the match." —The Courier-Journal.

Limberneck Again.

Father Fabnstock thinks he owns the fact the stock over him. He is the true servant of horse, cow and pig. He looks after them better than he looks after himself, and feeds them better than he feeds himself. It so often happens that about the time Dr. Pierce's Golden Medical Discovery has reached the place where it is most wanted, the thing's easy, he breaks down.

People have been more quickly appreciative of the corrective properties of Dr. Pierce's Golden Medical Discovery among farm stock raisers. They have found it prevents disease. It keeps the stomach in healthy operation, the organs of digestion and nutrition and increases the secretion of blood-making elements. The use of "Golden Medical Discovery" at seasons when the strain of work is greatest, keeps the system in perfect working order, and prevents the breakdown which comes from over drafts on the strength.

A few bottles of Dr. Pierce's Golden Medical Discovery and several visits to his Pleasant Pellets a year ago this spring, and have been well repaid, writes Mr. W. T. Thompson, of Townsend, Brooklyn, N.Y. "I am so thankful to Dr. Pierce's Golden Medical Discovery," he writes, "at seasons when the strain of work is greatest, keeps the system in perfect working order, and prevents the breakdown which comes from over drafts on the strength."

"Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

A single instance of knowledge when life is at stake has a value past computation. Dr. Pierce's Common Sense Medicine is a good book of articles less paragraphs. This great work is sent absolutely free on receipt of stamps to pay expenses of mailing one copy. Send 25 cent stamp for postage, 25 cent postage, or 50 cent stamp for edition in cloth. Address R. V. Pierce, Buffalo, N.Y.

Thirty years ago there were only two dozen explosive compounds known to chemists; now there are over a 1,000.

ATELY HINT.

You should be wise and see that your blood is rich and pure and your whole system put in a perfect condition. You can do this by taking Carlist's German Liver Powder. Then you will be free from malaria, typhoid fever, colds and all diseases. German Liver Powder is the best medicinal money can buy.

TWO MILLIONS A YEAR.

When people buy, try and buy again, it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved, that Cascarets are the most delightful bowel regulator for everybody the year round. All druggists 10c, 25c, 50c a box, cure guaranteed.

Limberneck Again.

We received a letter a few days ago (the letter has been misplaced and writer's name forgotten), making inquiry about limberneck. This has been written on a great many times in numbers of this paper and if the writer had been a careful reader of this department it would have been unnecessary to have asked the question. This also shows the importance of filing away for future reference, each week's paper, especially those which might want to be referred to. Limberneck is supposed to be caused by eating of decayed animal matter infested with maggots or worms, which puncture the throat and finally extend to the stomach and intestines. The following remedy has been used with good results: One ounce capicum, one ounce pulverized asafoetida, one ounce pulverized rhubarb, two ounces carb. iron, one ounce black antimony. Mix all thoroughly together; then mix a portion of it into a thick paste by using a little molasses; make into pills the size of a pea and give one every four or five hours.

We would suggest, if you do not care to keep these papers, that you get a scrap-book and when you find anything that you think might want to refer to cut it out and paste in the book.—Farmers Home Journal.

Who Hath Woe.

Man that is married to a woman during house-cleaning time is of few days and full of carpet tacks.

A cloud of dust obscures his vision and great gobs of dark gloom oppresses his soul.

He riseth betimes, snifeth the morning air within heavy heat and an obstructed nose.

He riseth betimes, snifeth the morning air within heavy heat and an obstructed nose.

He returneth at noon and falleth even a mop.

The dull sucking thud of the barreled carpet is heard in the land.

The queen of his household crowneth herself with a dirty towel and a fresh look.

She resembleth an avenging angel.

Her sceptre is a broom, and carpet fuzz clingeth to the selvage of her nose.

Large quantities of real estate setteth amonst the dimples of her swanlike neck.

The family dog howleth beneath the window like the wail of damned souls and Notre Dame soul in the house sleepeth.

She maketh her spouse eat dinner from the ironing board in the kitchen where it resteth on two chairs.

He findeth a cake of soap beside his plate and a portion of the scalp of the scrubbing brush in his butterer.

Aloha to —

Heart' st thou the soft sweet greeting.

Of "Aloha" meant for the?

It echoes meet from every side.

From all nature full and free.

Raise thy bright head then and listen,

Thy great dark eyes and see

Each breeze will wait the music

Of "Aloha" sung for the.

Look through the eyes into the heart.

Of every soul you meet.

Thou'lt see "Aloha" plainly written

Softly traced with each heart-beat.

But o'er my life lie many shadows,

Ah! how deep, how dark they seem.

Which in gusty murmurs tell me

My "Aloha" was a dream.

Across the great wide heaven-fixed gulf,

Our lives will ne'er entwine,

Thy heart will never whisper

"Aloha" unto mine.

Names Changed.

The Souther Indiana Poultry Association and the Indiana State Poultry Association are things of the past, the former having incorporated under the name of the Indiana Poultry Association, and the latter the American Fanciers' Association of Indiana. The Indiana State Poultry Association is the largest in the State and certainly deserves the name which it has chosen. The members of this association are hustlers and no place but the top of the list is good enough for them.—Farmers Home Journal.

SOME of the worst diseases scarcely give a sign until they strike their victim down. The terrible Bright's Disease may be growing for years and only show now and then by a backache or change of urine, by swollen face and failing appetite.

W. B. Tucker Ends His Life at Paducah.

Suicide Results from Continued Bad Health — Remains Brought Here.

W. B. Tucker, a well-known citizen of this county, committed suicide at Paducah, Wednesday night, by shooting himself through the head with a pistol. Mr. Tucker was about 50 years of age, and went to Paducah to live several years ago. He had been in bad health for some time, having an asthma trouble that made him very despondent at times, and on several occasions in the past he has been known to threaten to end his sufferings by destroying himself. It is the opinion of his nearest friends that bad health was the cause of the rash act, which was committed while his mind was temporarily unhinged. He had been spending some time here at Mrs. Jno. Hill's, and only returned to Paducah two weeks since. He leaves a wife and an adopted daughter, Mrs. Matt Wilkerson. His remains were brought to this city last night.

Monuments.

It is nonsense to believe that you can buy of some agent as cheap as you can of your home shop, where you get the best marble and granite at the lowest possible price. If you will call and see our work and get our prices you will find yourself well paid for the trouble. Yours truly,

ROBT. H. BROWN,
7th and Virginia Streets, Hopkinsville, Ky.
